## COMPLIANCE

### ASTM F3502 Standard Specification for Barrier Face Coverings

This specification is intended to help ensure barrier face coverings meet certain requirements to provide both a means of source control (reduce droplets expelled from wearer's nose and mouth) and to potentially offer a degree of particulate filtration (reduce droplets inhaled by the wearer) by testing of the following aspects:

FILTRATION | BREATHABILITY | FIT

## FEATURES:

- Arc Rating: 8 cal/cm<sup>2</sup>
- CAT 2
- Fabric/Material: 2 layers 4.4 oz. Aramid blend with single layer E-89 inside
- Inherently flame resistant, FR protection will not wash/wear out
- 3 layers per CDC guidelines
- Uses moisture management technology
- Soft knit adjustable ear loops maximize comfort and optimize fit
- Nose wire for improved fit
- Made in the USA
- One size fits most
- Listed on CDC website as per NIOSH recommendations for Barrier Face Coverings
