THE DRIFIRE® & WILD THINGS® LAYERING SYSTEM
BY NATIONAL SAFETY APPAREL

LAYERS UNITED IN PERFORMANCE
The Drifire and Wild Things layering system and its garments are designed to be worn together resulting in a fast moisture-wicking experience. As each layer attains moisture, the moisture-wicking technology pulls the moisture toward the outside of the body, keeping you warm and dry.

PCU & FR LEVELS

PCU (Protective Combat Uniform) is a state-of-the-art, seven-level, cold weather uniform system. Utilized by special operations forces worldwide, PCU focus on levels instead of layers. PCU levels combined with the the DRIFIRE® and Wild Things® layering guide make it easy to mix/match for any cold or hot weather scenario.

FR layers are designed to group the PCU levels in three fire resistant categories; undergarments/base as FR-L1, mid layers as FR-L2, and outer layers as FR-L3.

WEATHER & ACTIVITY LEVELS

To the right are symbols associated with varied weather and activity scenario including dry/wet environments and static/active activity levels.

HOW TO BUY

DRIFIRE: 800.533.0672 | DRIFIRE.COM | DRIFIRECS@THINKNSA.COM
